🔗 [Resume Website](#)

Internship Objective

I'm a 4th-year IT student with a strong background in backend development, especially using Node.js. I have solid experience working with RESTful APIs, object-oriented programming (OOP), and handling communication between frontend and backend. I'm looking for an internship where I can apply what I've learned, work on real projects, and improve my skills by learning from experienced developers. I'm eager to contribute to the team, grow as a backend developer, and get ready for a full-time job after graduation.

SKILLS

Technical main skills

JavaScript, NodeJS, ExpressJS.

Technical additional skills

ReactJS, Material UI, MySQL, MongoDB, Git, PHP(MVC).

Soft skills

Teamwork, Time Management, Problem-Solving, Adaptability, Self-learning, Time Management.

WORK EXPERIENCE & PROJECTS

07/2025 – 10/2025

Trello-web

Link demo: <https://trello.trungbui.dev> 📄

Test: Username: trungbuimanifest@gmail.com, **Password:** 12345678b

Project Descriptions

- **Frontend:** Built with React and Material UI for a modern UI, using Redux for state management and Axios for API calls.
- **Backend:** Powered by Node.js, Express, and RESTful APIs, with MongoDB for scalable data storage.
- **Features:** Drag-and-drop card/column functionality, JWT-based authentication, and email verification for secure access.

05/2025 – 07/2025

Web-laptop

Project Descriptions

Link github: https://github.com/chudinhtao/Web_Laptop.git 📄

- **Group project:** 5 members.
- **Frontend:** Developed with HTML, CSS, and vanilla JavaScript for dynamic UI and seamless API integration.
- **Backend:** Built with PHP and Laravel using MVC architecture, providing RESTful APIs with JWT-based authentication.
- **Database & Storage:** MySQL for efficient data management and cloud storage for images, ensuring scalability and performance.

EDUCATION

2022 – Present

University of Transport Technology

Information Technology – Final-year student

GPA: 3.3 / 4.0 | <https://utt.edu.vn> 

- Specialized in Backend Development with hands-on experience using Node.js, JavaScript, and PHP (Laravel/MVC).
- Solid understanding of MySQL, MongoDB, and RESTful API design.
- Built academic projects including e-commerce websites and student management systems.
- Strong self-learning ability and adaptability in fast-paced environments.
